Leather

The living room, the permanent mark of the home! It is the place where the family spends most of the nicest times during a relaxing day.

It is the place where many decorative items are essential, such as a magazine table, a TV, or a bookcase; just as a gem gives true value to a ring, a comfortable sofa with a unique design becomes the most important item of the décor.

It is a well-known fact that a sofa which is upholstered in natural leather has a longer life compared with sofas made of other materials such as textile, or imitations, not only due to vast maintenance possibilities but also due the luxurious look given to this decorative item.
