

## live the innovation

We renew our ideas to improve, to reach even further. Innovation is the method we have chosen to achieve our goals, through innovation we place into your hands the very latest in practical solutions, new materials and concepts. We strive to bring innovation to the Bathroom, in terms of the sensations, the emotions, in life itself...

## AROMATHERAPY

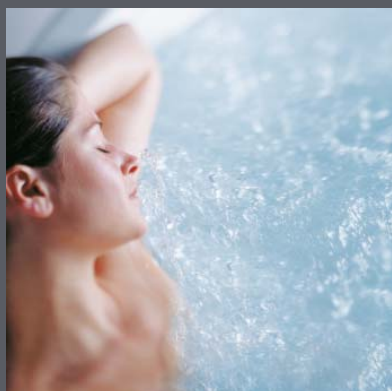

Immerse yourself in the most exquisite fragrances, allowing yourself to relax completely, to tone or award yourself a beautifying treatment for your skin. To speak of aromas is to close your eyes and evoke the innumerable images that come into your mind. When we inject aromatic essences, that come from previously selected oils, into water, we create a very special and beneficial atmosphere, giving the body the sensation of well-being. The secret of aromatherapy lies in the combination of aromas with specific properties, so that with each and every bath, one can feel the true benefits and pleasure.

## HIGIENIC SYSTEM

The disinfection of the hydromassage system greatly reduces the possibility of the development of germs or bacteria. Between the many advantages of de Higienic System is its exclusive direct pulverization system, automatically activated once the system is in use, guaranteeing absolute comfort for the user. Another fantastic advantage of the Higienic System is its capacity to save our natural resources, since it does not require water, thus respecting our environment even more. The system itself includes certain security features, safeguarding against it being activated while the bath is being used, or against its accidental activation. The Higienic System offers a perfect, healthy environment to fully enjoy your moments of relaxation and well-being.

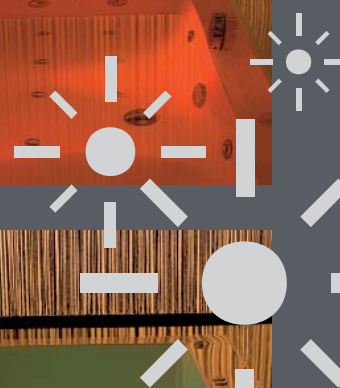

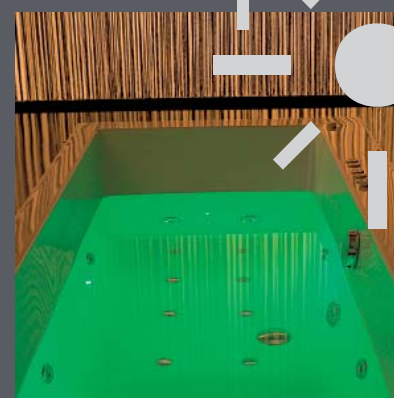

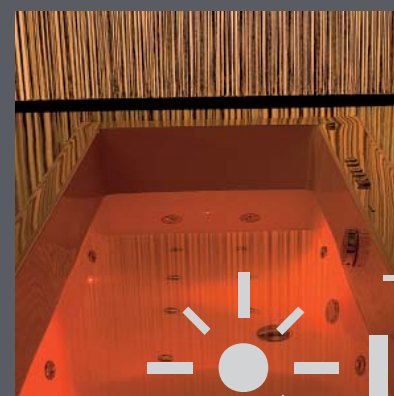

## TEMP CONTROL

The possibility of maintaining the desired water temperature during a session of hydromassage allows for a greater enjoyment of the benefits on offer. Temperature control eliminates reductions in water temperature, adapting to the personal preference of each person, and guaranteeing a constant water temperature for the duration of the hydromassage session, fundamental in eliminating accumulated tension and guaranteeing the sensation of maximum relaxation.

## CROMOTHERAPY

The colour of the Light has a particular effect on the body, and therefore on our well-being. Our body responds to chromatic emissions, thus stimulating the perception processes that contribute to our well-being. Cromotherapy helps us to obtain a better, more complete attainment of body care and a healthy state of mind.

# screne<sup>®</sup>

## MATERIA

An advanced composition of mineral compounds, organic polymers and specific additives which are designed to be moulded. It is also known as synthetic stone and is included in a group of «solid surface» materials - skinless synthetic materials whose outermost surfaces have the same properties as their interiors. The synthetic resin component in its structure gives it a certain amount of elasticity, while the mineral compounds act as a kind of shield that provide resistance to wear and tear, and also give it anti-slip qualities.

### PRINCIPAL CHARACTERISTICS:

- ✓ Extremely rigid
- ✓ Resistant to chemical agents
- ✓ Hard-wearing
- ✓ Pleasant to the touch
- ✓ Homogeneous

Learn more about both the characteristics and possibilities of Scene Materia, gaining an insight into the results on offer.

Should you wish for further information, relative to the possibilities on offer in terms of forms or colours, please do not hesitate to contact us.

# marmek®

A compact composition made from resins and minerals derived from marble, which bestow it a high level of hardness combined with excellent characteristics for its use within the bathroom. The surface finish offers infinite possibilities in terms of personalization and presents an excellent resistance to both cleaning and regular hygiene products. The material itself has high antibacterial qualities and is extremely suitable for the manufacturing of shower trays, due to its non slip nature.

# general terms and conditions of sale

## SCOPE:

These General Terms and Conditions of Sale are applicable to all sales and / or services described, mentioned, promoted or included in any form in our catalogues, promotions, price lists and price estimates. Absara Industrial S.L. reserves the right to modify the present terms and conditions of sale.

## PLACING OF ORDERS:

The placing of an order assumes the unconditional acceptance on behalf of the Client of the present General Terms and Conditions of Sale. The notification of the order placed by the Client, must be made in writing via e-mail ([export@absaraindustrial.com](mailto:export@absaraindustrial.com)) or via fax (0034 964 691 922), and will only be binding once accepted by Absara Industrial S.L. through the emission of an Order Confirmation by means of an e-mail. The Client of Absara Industrial S.L. must revise the Order Confirmation and, if necessary, immediately notify Absara Industrial S.L. in writing of any possible discrepancy. Price estimates and / or economic offers made by Absara Industrial S.L. will only be valid if made in writing and for the period of time specified. In the absence of a specified time period, this period of time will be 30 natural days. The sale of any product included in this price list will always be considered as a firm offer and conditioned by the obtaining of credit insurance cover by the current credit insurance company used by Absara Industrial S.L., consequently, in no way shape or form will it be understood that a Client of Absara Industrial S.L. receives merchandise as a form of deposit, or any other type of transaction other than a simple mercantile contract of sale.

## DELIVERY / ACCEPTANCE / RETURN OF GOODS:

Delivery dates will always be understood as being guiding, and in no way an acceptance of any form of responsibility for delays in delivery which do not surpass a period of 15 natural days from the original date stipulated, and in no way the acceptance of any form of responsibility for delays caused by greater forces. The buyer of the goods supplied by Absara Industrial S.L. assumes in full the obligation to immediately revise the goods supplied, and regarding any possible incidence in terms of the quality or quantity of the said goods, such incidence must be communicated in writing, and within a period of no more than 24 hours after their receipt. Once the period of 24 hours has transpired, the goods will automatically be considered as accepted by the Client, and will not be subject to any claim regarding the aforementioned categories. Absara Industrial S.L. will not accept the return of goods without prior authorization in writing, such authorization being express and relevant to each specific case, and will always contemplate compensation in terms of costs generated, such as reductions in the value of the goods.

## PRICES AND PAYMENT CONDITIONS:

The prices contained in this price list are guiding prices for general public sale and do not include VAT, any other taxes or any form of commission that could be generated from sales through official organizations or agencies. Absara Industrial S.L. retains the dominion and authority over the supplied goods, including such cases where the said goods have been transferred or passed on to third parties, until all costs related to the supply of the goods have been completely settled. Any form of delay regarding the full compliance of the Client's payment obligations in relation to the goods supplied or services contracted will invoke the immediate withholding of all orders currently in progress.

## GUARANTEE:

The Guarantees are governed by current legislation and in relation to Commercial Guarantees, which extend the aforementioned legislation; they are contained in the Guarantee Certificate supplied alongside the product.

## DATA PROTECTION:

The Client subscribing to the present contract accepts that Absara Industrial S.L., in full compliance with current legislation, specifically the Data Protection Law, dated 13th of December 15/1999, relating to the automated handling and use of data denominated as being of personal character, gives its full consent to the use of the aforementioned automated information with the sole aim of establishing an appropriate commercial relationship, in the same way that Absara Industrial S.L. will make use of the specified information with the sole aim of being able to offer the Client the products and services inherent to Absara Industrial S.L.

In full compliance with current legislation relating to Data Protection, the Client may at any time exercise its right to access, modify or cancel its personal data, or express opposition to its use, addressing itself directly by e-mail to Absara Industrial S.L. through the following e-mail address; [comercial@absaraindustrial.com](mailto:comercial@absaraindustrial.com).

## FURTHER TERMS AND CONDITIONS:

The retail prices and conditions contained in the current price list can be subject to modification or change, whether considered as necessary general or punctual changes by Absara Industrial S.L., such changes applicable in relation to any or all of its Clients, taking into account that such modifications or changes must be communicated in writing, with the necessary acceptance on behalf of both parties. This current price list annuls all earlier editions and, alongside any documents supplied, is the exclusive property of Absara Industrial S.L.

Absara Industrial S.L. reserves the right to introduce any modifications to the current price list and conditions and will not be held responsible for any errors contained.
